

Filled with desire to experience life in all its intensity
you came into our lives and cheered us up.

Now, losing you is such a sad thing,
but your joyfulness will remain forever
in our hearts and memories.

In deep sorrow we say farewell to our dear friend and colleague

Dr. Vijay Balasaheb Bansode

1982–2015

His last holiday trip ended in a tragic accident. Our deepest condolence goes to his wife Megha and to their two families. We hope that they may find strength at this point of time.

We will always keep Vijay in good memory and are grateful for the time during which we have been able to collaborate with him.

Prof. Daniel Schümperli and team

Institute of Cell Biology, University of Bern
NCCR RNA and Disease
Baltzerstrasse 4, 3012 Bern

The funeral ceremony will take place in India.
